

STAR B RANCH

Grassfed Guarantee

GUARANTEED 100% GRASSFED

You, as our consumer, deserve to know the truth about how our animals are raised and the diet that goes into them. We believe, you are what you eat! In order to legally use the word "grassfed" on our meat labels or other advertising we are required to provide proof that our animals NEVER receive grain in their lifetime. Star B takes that position so we want to assure you with our 3rd party document.

Rather than a lot of words to convince you of our raising methods, we are posting the "PRODUCER AFFIDAVIT" that each rancher/producer (Star B included) must sign before we accept any animals purchased for slaughter and sold under Star B's 100% grassfed label. This letter of guarantee is also sent to the California State Department of Agriculture and on file with them.

RE: GRASSFED CLAIM STANDARDS FOR STAR B RANCH

Producer Affidavit

Grass (Forage) Fed: Grass and forage shall be the feed source consumed for the lifetime of the ruminant animal, with the exception of milk consumed prior to weaning. The diet shall be derived solely from forage consisting of grass (annual and perennial), forbs (e.g., legumes, Brassica), browse, or cereal grain crops in the vegetative (pre-grain) state. Animals cannot be fed grain or grain byproducts and must have continuous access to pasture during the growing season. Hay, haylage, baleage, silage, crop residue without grain, and other roughage sources may also be included as acceptable feed sources. Routine mineral and vitamin supplementation may also be included in the feeding regimen. If incidental supplementation occurs due to inadvertent exposure to non-forage feedstuffs or to ensure the animal's well-being at all times during adverse environmental or physical conditions, the producer must fully document (e.g., receipts, ingredients, and tear tags) the supplementation that occurs including the amount, the frequency, and the supplements provided. No added growth hormones or antibiotics are used during the lifetime of these animals.
